

# TAKE A STEP ON OUR PATHWAY TO PRESERVATION!

## Give the gift of the future!

Take a step toward ensuring a healthy local environment and a sustainable future for all by purchasing one or more symbolic “footprints.” All donations given through this program are used specifically to acquire new preservation lands and protect forests, farmland, waterways, and wildlife habitat.

For each \$35 footprint purchased, you or your gift recipient will receive a certificate acknowledging your contribution toward our collective goal of ensuring the health of our local natural resources.
